Chief Administrative Officer

To The State Director of Agriculture
and The Stanislaus County Board of Supervisors

Gentlemen:

In accordance with Section 2279 of the California Agricultural Code, we hereby submit the 1971 Crop Report for Stanislaus County.

Although the gross income indicated by the report is a new record, it is not a reflection of increased grower profit. Production and marketing costs have continued to rise and limit net incomes. Certain commodities, particularly apricots, cling peaches and chicken eggs for market, have in fact suffered sharp declines in income.

The County's ten leading farm commodities are:

Milk, all	$46,363,000
Cattle & calves, all	31,581,000
Chickens, all	21,728,000
Egg, chicken, all	19,123,000
Peaches, cling	15,265,000
Tomatoes	10,051,000
Alfalfa	9,496,000
Grapes, all	9,123,100
Almonds	8,900,000
Walnuts	8,520,000

We wish to express our appreciation to the many persons who have contributed to the preparation of this report.

Respectfully,

Armen V. Sarquis
Stanislaus County
Director of Extension
