To C. B. Christensen, Director of Food and Agriculture and
The Stanislaus County Board of Supervisors

Gentlemen:

In accordance with section 2279 of the California Agricultural Code, we hereby submit the 1973 Crop Report for Stanislaus County.

Although the total gross income figure of \$381,694,100 is an increase of 42% over that of 1972, much of the gain was absorbed by rising interest rates, taxes, farm wage rates, and prices for farm supplies and services. These increasing production and handling costs have continued to limit net profits.

This limitation is particularly true of livestock and poultry and related products. The combined gross income from these commodities amounted to \$194,187,000, an increase of 38% over 1972. At the same time, however, average feedstuff costs rose approximately 55% and other farm expenses are estimated to have increased by 15%.

The County's ten leading commodities are:

Milk, all	\$61,388,000
Cattle & calves, all	48,268,000
Eggs, chicken, all	44,605,000
Chickens, all	33,180,000
Almonds	23,882,000
Peaches, all	20,320,000
Grapes, all	19,982,000
Walnuts	13,119,000
Alfalfa	12,804,000
Tomatoes, all	12,531,000

We wish to express our appreciation to the many persons who have contributed to the preparation of this report.

Respectfully,

Armen V. Sargis
