

B: GENERAL PERMIT CONDITIONS

The following permit conditions apply to all Stanislaus County Restricted Materials Permits except those specifically conditioned otherwise.

1. A notice of intent (NOI) shall be **submitted a minimum of 24 hours prior** to the use of California restricted materials. For weekend and early Monday applications of Restricted materials, NOIs shall be submitted by 3:00 pm Friday prior. NOI may be submitted by FAX, electronically, or in person at the Agricultural Commissioner's office. Field fumigant NOIs shall be submitted **96 hours** in advance. For field fumigations proposed for Monday, the NOI must be submitted by the Tuesday prior (See specific regulations for methyl bromide field fumigations).
2. Notices of intent meets the permit requirement of time-specific notification. The pesticide use may commence within **4 days** of intended application date if delays are caused by uncontrollable conditions such as adverse weather or unavailability of equipment. Once commenced, the application must be finished by the 3rd day. If the intended application does not take place within **4 days** of the proposed application date submitted on an NOI, the permittee must resubmit another NOI to the Agricultural Commissioner for the new proposed application date. The replacement NOI should be marked **“RESUBMITTAL” or “DATE CHANGE”**.
3. NOI waiver requests are limited to critical situations where immediate control measures are needed to prevent substantial economic loss. Requests will be approved or denied at the Commissioner’s discretion.
4. Pesticide application restrictions for production agricultural use within a **quarter mile** of a school site will also apply to Private Schools, K-12, Monday through Friday, during the hours of 6:00 am – 6:00 pm. Please refer to Title 3 of the California Code of Regulations, Section 6691 for restrictions on distance, application equipment, and the type of pesticide applied.
5. Metam Sodium and Metam Potassium Permit Conditions will be issued at the time of submission of NOI, 96 hours in advance.
6. Emergency exemption (Section 18) permits expire at the same time as the current Section 18 registration expires. If the Section 18 pesticide is subsequently re-registered, the permittee must appear in person to renew the Section 18 permit. The Section 18 label is a part of the registered label and must be present at the application site at the time of use.

NOTICE: FAILURE TO COMPLY WITH THESE CONDITIONS AND OTHER PERTINENT LAWS AND REGULATIONS MAY RESULT IN THE REVOCATION OF YOUR PERMIT AND THE POSSIBILITY OF FURTHER ADMINISTRATIVE ACTION BY THIS DEPARTMENT.
