***** Detailed description and accurate maps are required for all fumigations, showing actual distances to property lines, residential areas, sensitive sites within ¼ mile or other areas determined by the Commissioner. If a structure will be vacated for the application and REI, this must be indicated on the NOI, recommendation and map submitted.
For web access to your Permit/OpID: http://www.calagpermits.org (Anyone other than the permittee shall have written permission from the permittee for web access rights.) **The above-marked conditions have been issued to you and shall be followed for the use of pesticides within Stanislaus County.**

I understand that permit conditions are subject to annual revision. I acknowledge that it is my duty to review the most current version of these conditions, which are available through the Stanislaus County Agricultural Commissioner's website (www.stanag.org) or may be obtained directly from the Stanislaus County Agricultural Commissioner's Office upon request.
